

# GRAND TOKAJ

# Company Profile

---

- Grand Tokaj is the largest winery of the historical Tokaj Wine Region in Hungary.
- GT is in state ownership and provides 35% of the region's total wine production.
- Capable to produce over 10M bottles in consistent high quality.
- State ownership guarantees long term security
- Founded in 1948 by the Hungarian State, the company was known as Tokaj Kereskedőház from 1993 until 2016.
- Currently in possession of 67 ha of vineyards.
- It is the integrating force of the region procuring grapes from over 1000 private growers across over 1000 ha land.
- Modernization process started in 2013 with the construction of new facilities and is currently ongoing.
- Károly Áts – famed for his 100 point Eszencia - has been the chief oenologist of the company since 2013.

# Tolcsva Headquarters

---

The company HQ is located in Tolcsva and is home to the state-of-the-art production facilities including:

- the winery & laboratory,
- a new tank hall,
- a bottling plant,
- the central warehouse,
- and the main offices.

# High Quality Technological Background

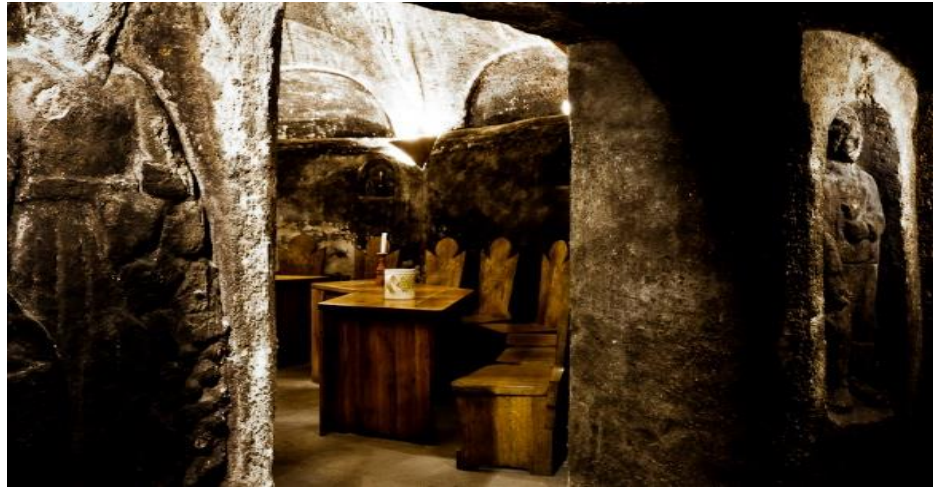

The company in line with the National Council of Wine Communities' guidelines provides small producers a steady income as the integrating force of the region, purchasing quality grapes in large volumes as well as maintaining a Premium Partnership Program. The premium program enforces stricter vineyard practices on the participant producers in order to provide the highest quality yields from the very finest plots of the wine region. We pay premium prices to ensure that premium grapes are reserved for the premium wine range.

The modern tank hall of 6.6 million liters temperature controlled capacity ensures a lengthy storage to the large volume of incoming grapes which had passed the rigorous examination processes of our quality control team.

The two cutting-edge bottling lines can produce an average of 20.000 bottles an hour and have an annual capacity of 10 million bottles in total.

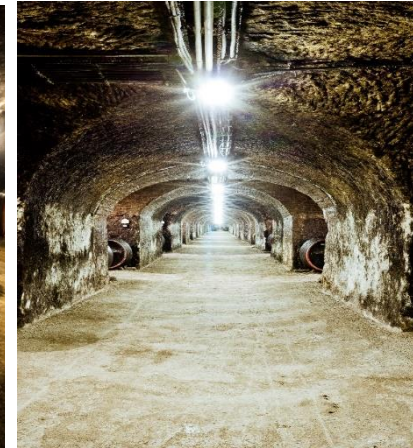

# Szegi Cellar

Our 5 km long two-storey Szegi cellar is a 400-year-old aging facility interconnecting four former rock mines and is one of the largest wine cellars in Central Eastern Europe.

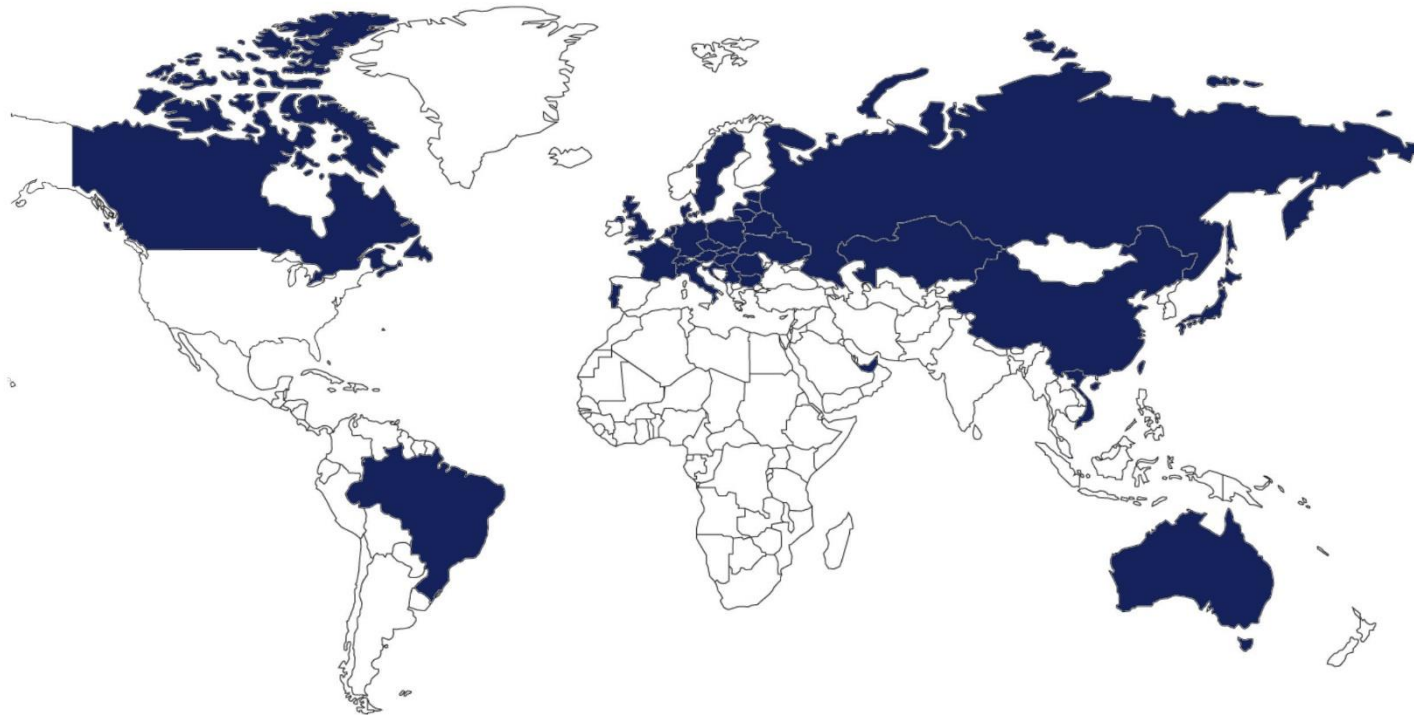

The upper level is also used as a wine library storing back vintage Tokaji wines dating from the 1920s.

The lower level of the cellar system is primarily used for maturing Tokaji Aszú, while the upper level is most ideal for the maturation of Szamorodni wines.

# Grand Tokaj Wines in the World

# Károly Áts – Chief Winemaker

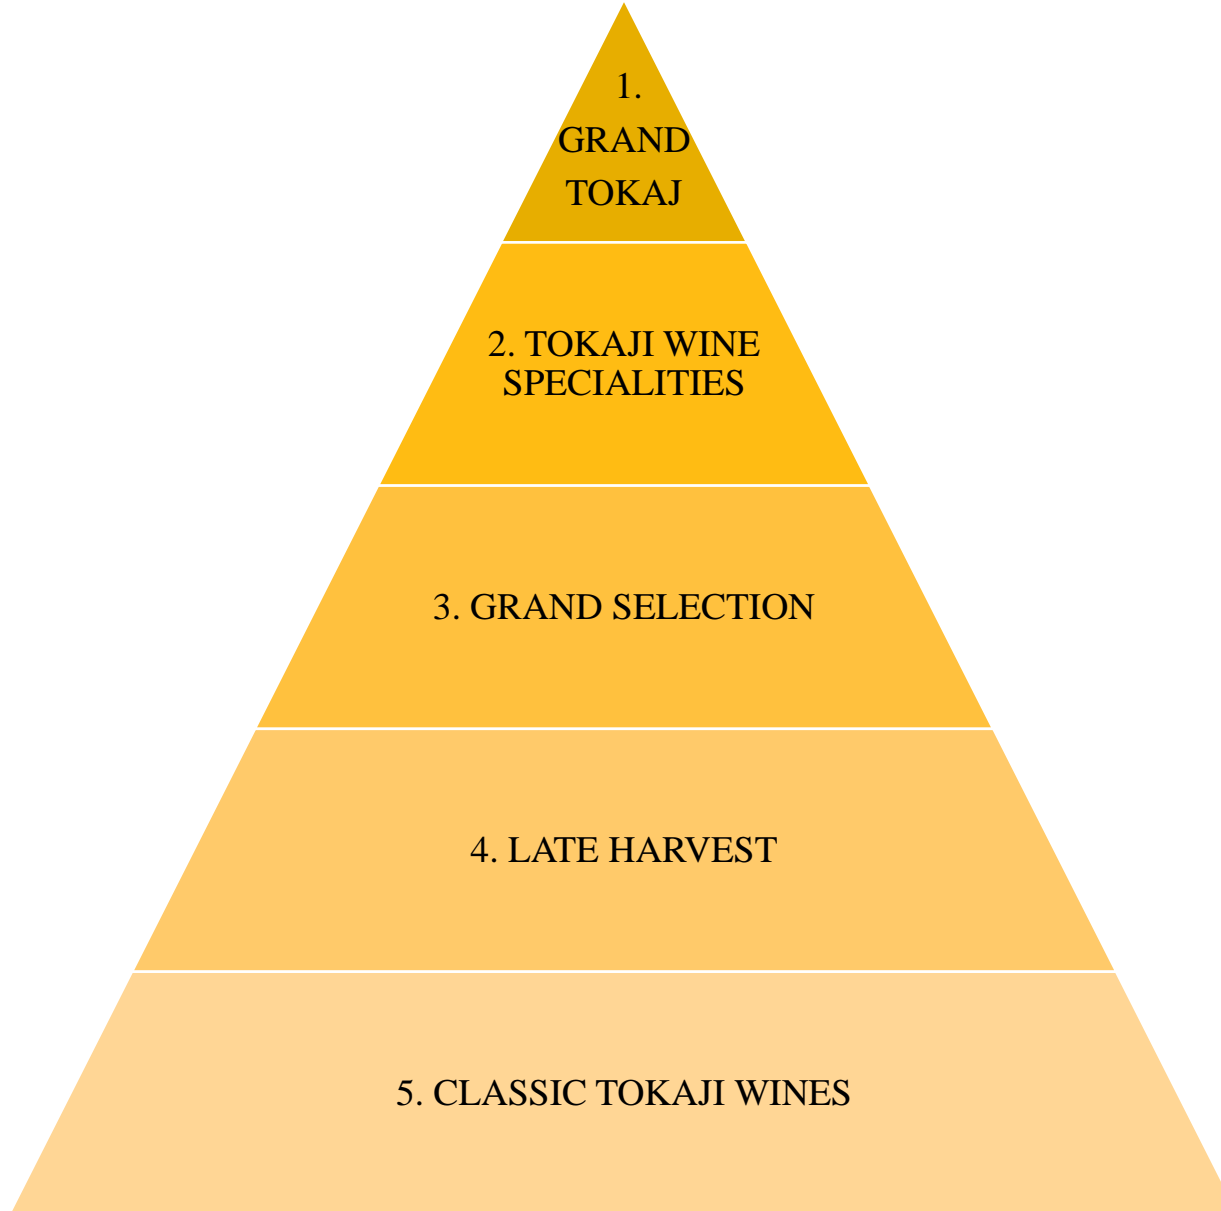

- Local patriot, born in the wine region.
- Winner of the title “Winemaker of the Year” in Hungary in 2012.
- Has been awarded numerous awards for his wines internationally.
- Károly Áts is the only Hungarian winemaker who made a 100 point wine awarded by US Wine & Spirit Magazine.
- Chief Winemaker of Grand Tokaj since 2013

*„I was born in a wine region that I believe is a miracle”*
